

TRANSPORTATION DEPARTMENT[761]

Adopted and Filed

Pursuant to the authority of Iowa Code sections 307.12, 307A.2, 321.182, 321.189 and 321.190, the Iowa Department of Transportation, on October 18, 2017, adopted amendments to Chapter 601, “Application for License,” Chapter 605, “License Issuance,” and Chapter 630, “Nonoperator’s Identification,” Iowa Administrative Code.

These amendments form a comprehensive update of the Department’s rules affecting or involving the initial application for a driver’s license or nonoperator’s identification card to better implement and align with existing legal authority and Department practice and to eliminate outdated or irrelevant requirements or options and accommodate modern, electronic procedures for authenticating official documents and exchanging information. In addition, the amendments relocate requirements regarding the application for duplicate licenses from Chapter 601 to Chapter 605, which specifically addresses the issuance of duplicate licenses in rule 761—605.11(321); clarify the manner in which the Department will determine the eligibility for licensing a person who has moved to Iowa but is subject to a license or driving sanction in another state; and clarify the process for documenting a change in sex designation to ensure that a formal change in sex designation is permitted only under standards consistent with standards set forth in the Iowa Code and maintained by the Iowa Department of Public Health, applied equally and consistently to all Iowa residents who request a change in the sex designation shown on a driver’s license or nonoperator’s identification card.

The following explains each item in the rule making:

- Item 1 amends subrule 601.1(3) to better and more consistently implement Iowa Code chapter 321C, Interstate Drivers License Compacts. Iowa Code chapter 321C generally promotes safety ensuring that drivers will face consistent consequences for driving infractions, regardless of the state in which the infraction occurs. The compact requires that a conviction a driver receives in another state be reported to the driver’s home record and be given the same effect as if the conviction occurred in the driver’s home state and requires the Department to determine at the time of application for a new license whether the applicant has ever held or currently holds a license issued by another state, and to refuse licensing if the applicant held a license issued by another state but the license has been suspended or revoked because of a violation and the suspension or revocation has not terminated. In this manner the compact ensures that unsafe drivers do not go undetected by accumulating convictions in other states or skipping from state to state. However, the compact also attempts to ensure the safe mobility of drivers who have legitimately moved from one state to another and to allow the new state to give effect to its driving and licensing laws by allowing the licensing authority to grant a new license if it has been more than one year from the date the license was revoked and the licensing authority has determined it is otherwise safe to grant the applicant a driving privilege.

The Department’s past practice did not fully realize the intent of the compact in two areas. First, the Department did not have a consistent method for determining whether a driver who had moved to Iowa from another state while under revocation in another state was safe to drive, and simply withheld licensing privileges so long as the driver was revoked in another state. This often left drivers who would otherwise be eligible if the offense had occurred in Iowa in limbo and without driving privileges until the revocation ended in the other state. Second, the Department interpreted this provision as only applying to a person who actually held a license in another state; if the person was subject to a revocation but never had a driving privilege, the Department refused to consider the application of the compact, which likewise left the person in limbo and without driving privileges until the out-of-state revocation ended. The amendments remedy these issues by:

- Clarifying that the Department interprets the compact as applying to persons who have held a license in another state as well as to persons who have never held a license, which ensures that the intent of the compact is consistently met for similarly situated persons.

o Confirming that if the application shows the person's license or driving privilege was revoked by another state and at least one year has passed since the revocation was imposed, the applicant may be eligible for an Iowa license provided the Department determines it would be safe to grant the application in Iowa. To consistently make that determination, the Department will consider whether the applicant would be eligible for licensing if the violation had occurred in Iowa, will apply the same period of revocation as though the offense had occurred in Iowa, and will grant licensing if the Iowa period of revocation has expired, subject to the same limitations and restrictions that would be imposed on an Iowa driver (other than imposition of a civil penalty), and contingent upon the driver demonstrating adequate knowledge and skill to operate a motor vehicle safely and contingent further on the driver otherwise being physically and mentally capable of safely operating a motor vehicle. This part of the amendment better aligns licensing policy with the compact and better promotes safe mobility not only by ensuring out-of-state revocations are recognized and given effect but also by allowing a return to driving on the same terms and conditions that would apply to any Iowa license holder. The amendment permits the Department to make further investigation or require further information if necessary.

- Item 2 clarifies that a participant in the "Safe at Home" program administered by the Iowa Secretary of State, which is an address confidentiality program for victims of domestic violence, sexual assault, trafficking, stalking, or violent crimes, may provide the participant's address designated by the Secretary of State when applying for a driver's license and aligns the Department's rules regarding proof of address to the Department's practice in implementing this program.

- Items 3 and 8 update implementation sentences within rules 761—601.1(321) and 761—605.11(321) to add Iowa Code section 321.13, which requires the Department to examine and determine the genuineness, regularity, and legality of every application made to the Department and which authorizes the Department to investigate or require additional information as needed to do so and to reject any application if the Department is not satisfied with the genuineness, regularity, or legality of the application or the truth of any statement made within the application, or for any other reason, when authorized by law.

- Items 4 and 11 add language to acknowledge an existing process under which an individual who has a driver's license or nonoperator's identification card from a foreign jurisdiction may not be required to surrender the license or card if Iowa has a letter of understanding with the foreign jurisdiction that allows the individual to retain the license or card.

- Item 5 clarifies the proof required when a person is applying for a new driver's license. Specifically, the following amendments are adopted:

- o Paragraphs 601.5(1)"b," 601.5(5)"a" and 601.5(5)"b" are amended to acknowledge that many certified documents may no longer contain a raised seal but are still acceptable if the documents bear a certification of authenticity from the issuing agency or entity. These amendments allow the Department to accept more electronically issued documents in the future and avoid inconveniencing applicants who may not have access to a document that contains a raised seal.

- o Paragraph 601.5(1)"b" and subrules 601.5(6) and 601.5(7), regarding proof of identity and date of birth, are amended to encompass situations where an issuing agency issues an entirely new certificate of birth rather than an amended certificate of birth. This amendment ensures a properly issued certificate of birth will be accepted to document a change shown in the certificate regardless of whether the certificate is marked as amended or is issued as a new document, which will avoid inconvenience to applicants.

- o Subrule 601.5(2) is amended to include Internal Revenue Service Forms 1095-A, Health Insurance Marketplace Statement; 1095-B, Health Coverage; and 1095-C, Employer-Provided Health Insurance Officer and Coverage; to the list of documents that may be used to prove an applicant's social security number. This amendment will increase the types of documents an applicant may use to prove the applicant's social security number and decrease the chance that an applicant will not have access to an acceptable form of proof, which will also avoid inconvenience to applicants.

- o Subrule 601.5(5) is amended to eliminate an outdated requirement to submit an affidavit to prove a name change. Under the amendments, an applicant who has changed the applicant's name need only provide the legal documents showing the name change to prove the change of name, without

submitting a separate affidavit, and the applicant's request for the name change is captured electronically. This will avoid inconvenience to the applicant associated with completing a paper form and seeking a notary to attest to the application. The amendment also provides that the documentation of a name change must include the applicant's legal name, rather than the applicant's "full" legal name, to encompass court orders which may include an applicant's middle initial rather than the applicant's full legal name. This ensures the Department's ability to accept all validly issued court orders for name change and avoids inconvenience to an applicant who might otherwise have to seek an amended order to include the applicant's full middle name where it has not changed.

- o Subrule 601.5(6) is amended to remove the provision allowing for a court-ordered change of date of birth. There is no known procedure for obtaining a court-ordered change of date of birth.

- o Subrule 601.5(7) is amended to ensure that the procedure for changing the sex designation on a person's driver's license remains consistent with the requirements of Iowa law and is applied on equal terms to all Iowa driver's license holders, whether born in Iowa or outside of Iowa. Iowa Code section 321.182 requires a driver's license applicant to provide the applicant's sex at the time of application, and Iowa Code section 321.189 requires the Department to include the applicant's sex on any driver's license issued. Policy on change of sex designation in Iowa is guided by Iowa Code section 144.23(3), which allows the state registrar to establish a new birth certificate for a person born in Iowa that shows a new sex designation when the person submits a notarized affidavit from a licensed physician and surgeon or osteopathic physician and surgeon stating that by reason of surgery or other treatment, the sex designation of the person has been changed. The existing subrule 601.5(7) recognizes this process by allowing a license holder to change the sex designation that appears on the license by presenting an amended birth certificate, and also allows a license holder to change the sex designation that appears on the license by presenting a court-order change of sex designation. However, the existing subrule has produced unequal and inconsistent results for two reasons. First, the option to present an amended birth certificate has excluded similarly situated persons who were not born in Iowa, as not all states have a procedure for amending or changing a birth certificate to reflect a new sex designation. Second, the option to present a court order for change of sex designation, which was intended only to accommodate the possibility that other states might allow a change of sex designation by court order, has been mistakenly construed by some Iowa judges as creating a cause of action in Iowa for a court-ordered change of sex designation that does not otherwise exist in Iowa law, resulting in court orders for change of sex designation that lack proper legal basis or consistent standard. To correct these deficiencies, the amendment to subrule 601.5(7) eliminates the option to prove change of sex designation by court order and inserts a proof structure that treats driver's license holders born either in or outside of Iowa equally and holds them to the same standard that the Iowa Department of Public Health follows for individuals seeking to amend or acquire a new birth certificate that reflects a change of sex designation. The amendment clarifies that a license holder born in Iowa who wishes to change the sex designation on the license must present a new Iowa birth certificate that changes the sex designation, which the state registrar issues according to the standards set forth in Iowa Code section 144.23(3) and Iowa Department of Public Health's rule 641—99.20(144). A person born outside of Iowa must either present a properly amended or new identity document other than an Iowa birth certificate (a birth certificate from the birth state, Consular Report of Birth Abroad, or Certificate of Citizenship) that documents the sex designation change, or may present a notarized affidavit from a licensed physician and surgeon or osteopathic physician and surgeon stating that by reason of surgery or other treatment, the sex designation has been changed. The standards and requirements adopted for proof of change of sex designation by presentation of a notarized affidavit are identical to those set forth in Iowa Department of Public Health's rule 641—99.20(144), which ensures that similarly situated persons have equal opportunity to change the sex designation on their licenses, regardless of whether they were born in or outside of Iowa, but only within the standards for change of sex designation set forth in Iowa Code section 144.23(3). To ensure accurate and consistent application, the amendment to the subrule allows the Department to make further inquiry or investigation when necessary, requires the application for change and all documentation to be submitted centrally to Driver and Identification Services, and confirms that the change of sex designation does not effect a name change unless the license holder verifies a legal name change following the procedures in subrule 601.5(5).

- Item 6 updates rule 761—601.6(321), previously specific to parental consent, to accurately reflect that either a parent, guardian or custodian of a child may provide consent to issue a driver's license or permit to a minor. This change properly aligns the content of this rule with the content of Iowa Code section 321.184 and with the Department's practice. The amendment also removes the requirement that the form documenting the parent's consent be notarized and instead provides that the consent shall be verified by certification under penalty of perjury. Iowa Code section 321.184 does not require notarization, and removing this requirement avoids inconvenience to applicants associated with seeking a notary to complete the form and allows this document to be executed electronically in the future. Item 9 updates subrule 630.2(2) to make a coordinating amendment to accurately reflect that a parent, guardian or custodian of a child may provide consent to issue a nonoperator's identification card to a minor.

- Items 7 and 12 simplify the requirements for obtaining a duplicate (replacement) driver's license or nonoperator's identification card for one that is lost, stolen, or destroyed. The Department's rules previously required an applicant who needed a duplicate license or card to provide the same documents to prove legal name, date of birth and social security number that an applicant applying for a new license or card must provide. Requiring the applicant to again provide these documents is not necessary, however, because the Department already has this documentation on file for the applicant and can verify legal name, date of birth and social security number, based on information provided by the applicant, and can additionally verify the applicant's identity based on the applicant's photos on file and through the use of facial recognition technology. Accordingly, the amendments to Items 7 and 12 eliminate the requirement to re-present these proofs when an applicant requests a duplicate license or card. The amendments confirm that the Department is allowed to conduct further investigation if necessary to verify the applicant's identity and provide that the duplicate license or card shall not be issued if the applicant's identity is questionable, cannot be determined or otherwise does not match the identity of record. The updated language also provides that if the name, date of birth or social security number has changed since the previous license or card was issued, the applicant shall provide proof of the change as required by subrule 605.11(2).

- Item 10 strikes the outdated requirement that the county number indicating the county of residence appear on the nonoperator's identification card.

Notice of Intended Action for these amendments was published in the September 13, 2017, Iowa Administrative Bulletin as **ARC 3307C**. These amendments are identical to those published under Notice of Intended Action.

These rules do not provide for waivers. Any person who believes that the person's circumstances meet the statutory criteria for a waiver may petition the Department for a waiver under 761—Chapter 11.

After analysis and review of this rule making, no impact on jobs has been found.

These amendments are intended to implement Iowa Code sections 321.13, 321.182, 321.184, 321.189, 321.190, 321.195 and 321C.1.

These amendments will become effective December 13, 2017.

The following amendments are adopted.

ITEM 1. Amend subrule 601.1(3) as follows:

601.1(3) Out-of-state verification. Upon application for a driver's license, the department shall ascertain whether the applicant has ever held, or is the holder of, a driver's license issued by any other state.

a. The department shall not issue a driver's license to the applicant if:

(1) The applicant has held a driver's license issued by any other state, but the driver's license has been suspended by reason, in whole or part, of a violation and if such suspension period has not terminated.

(2) The applicant has held a driver's license issued by any other state, but the driver's license has been revoked by reason, in whole or part, of a violation and if such revocation has not terminated, except that after the expiration of one year from the date the license was revoked, the applicant may make

application for a new license if permitted by law. The department may refuse to issue a license to any such applicant if, after investigation, the department determines that it will not be safe to grant such applicant the privilege of driving a motor vehicle on the highways.

(3) The applicant is the holder of a driver's license issued by another state and currently in force, unless the applicant surrenders such license.

b. If the applicant is subject to subparagraph 601.1(3) "a"(2) or has committed an offense or acted in a manner in another state which in Iowa would be grounds for revocation and it has been more than one year from the date the license or driving privilege was revoked, the department may issue the applicant a driver's license only upon such terms and conditions and subject to such restrictions or limitations as if the violation had been committed and the revocation imposed in Iowa. The department shall delay licensing or restrict licensing for such period of time that the applicant would be ineligible for a driving privilege or subject to a restricted driving privilege if the violation had been committed and the revocation imposed in Iowa.

(1) For purposes of determining whether it is safe to grant the applicant a driving privilege, an applicant may be determined to be safe only if the department determines all of the following:

1. The applicant has satisfied the same requirements for the grant of a driving privilege if the violation had been committed and the revocation imposed in Iowa.

2. The applicant is otherwise physically and mentally capable of safely operating a motor vehicle.

(2) However, the department shall not assess a civil penalty to the applicant as a condition of licensing under this subrule.

(3) Pursuant to Iowa Code section 321.13, the department may make further investigation or require further information necessary to determine whether it is safe to grant the applicant a driving privilege.

c. ~~If a person the applicant is licensed in another licensing jurisdiction state but does not have a current out-of-state license to surrender, the department may require an official letter from the out-of-state licensing agency before issuing a license. The official letter must verify verification of the person's applicant's driving record from the state of record, which may be accomplished electronically where possible, to assist the department in determining whether it is safe to grant the person applicant a license.~~

ITEM 2. Amend subrule 601.1(6) as follows:

601.1(6) Address. The applicant shall provide the applicant's current residential address and the applicant's current mailing address, if different from the applicant's current residential address. The applicant shall not provide as a mailing address an address for which a forwarding order with the United States Postal Service is in place. Notwithstanding anything in subrule 601.1(6), an applicant who is a participant in the "safe at home" address confidentiality program administered by the Iowa secretary of state may submit a designated address issued to the applicant by the Iowa secretary of state as the applicant's residential and mailing address.

An applicant who renews a nonoperator's identification card electronically pursuant to subrule 630.2(10) shall destroy the previous nonoperator's identification card upon receipt of a renewed nonoperator's identification card.

ITEM 12. Amend subrule 630.3(1) as follows:

630.3(1) *Lost, stolen or destroyed card.* To replace a nonoperator's identification card that is lost, stolen or destroyed, the cardholder shall ~~comply with the requirements of 761—601.5(321)~~ provide the cardholder's full legal name, date of birth, and social security number, all of which must be verified by the department, and pay the replacement fee.
